**DAILY REPORT**

**Sunday, July 24, 2022**

---

Reported natural events and disasters in the territory of Indonesia collected by the BNPB Pusdalops since Sunday, July 24, 2022, at 07.00 WIB until Monday, July 25, 2022, at 07.00 WIB, as follows:

**A. Disaster Event**

**1. Landslide in Kab. Bogor, Prov. West Java**

Chronology : Triggered by high-intensity rain and drainage flows that are unable to withstand rainwater discharge, causing the TPT workshop building to collapse on Sunday, July 24, 2022, Pkl. 04:00 WIB

Location : Kec. Dramaga, Ds. Babakan, Ds. Peaceful

Casualties: 5 families/16 people affected, 4 families/10 people displaced

Material Losses: 1 unit of RR house, 2 units of hospital house & 1 unit of house at risk

Efforts: BPBD Kab. Bogor coordinates with local officials to collect data and clean up landslide materials

Up-to-date Conditions: Currently, the team in the field is cleaning the avalanche material.

The part of the house that was damaged has not been repaired, while the owner of the house fled to the Al-iklas prayer room which is in the same area

Urgent Needs : Logistics & tarpaulin

**Source:** Pusdalops BPBD Kab. Bogor via WA. 081210109002

**2. Floods and Landslides in Kab. Sigi, Prov. Central Sulawesi**

Chronology : Triggered by high intensity rain that occurred on Friday, 22 July 2022, 21:00 WITA to Saturday, 23 July 2022, pkl. 03:00 WITA caused the overflow of the Kalipuh river by bringing mud & wood materials to residential areas and also landslides at several points in Dusun II and III, Sungku Village

Location : Kec. Kulawi, Ds. my sungku

Casualties : 19 families/70 people affected

Material Losses : 19 houses affected & Jl. Trans Palu - Gimpu affected

Efforts: BPBD Kab. Sigi conducts an assessment and coordinates with BPBD Prov. Central Sulawesi

Up-to-date Condition : The water has receded. Residents do house cleaning each. Residents' activities have recovered.

### **3. Floods in Kab. Bintuni Bay, Prov. West Papua**

UPDATE : Sunday, July 24, 2022, pkl. 14:00 WIB

Chronology : Triggered by rain with moderate to heavy intensity which lasts for a long time  $\pm$  since Pkl. 12:00 WIT – 14:00 WIT causing flooding in Kp. Husu on Wednesday, July 13, 2022, Pkl. 15:00 WIT

Location : Tembuni District, Kmp. Husul, Kmp. Bangun Harjo, Kmp. wake up majesty, Kmp. Tusur

Casualties: 51 families / 195 people affected & 61 people displaced

Material Losses :  $\pm$  22 RR housing units. TDC 30 - 100 cm

Efforts: BPBD Kab. Teluk Bintuni coordinates with relevant agencies and the District/ Village government to collect data and handle it.

BPBD Kab. Bintuni Bay helps evacuate residents to refugee camps (schools)

Urgent Needs: Shelters, sanitation and clean water, medicine

medicines and health workers as well as basic clothing needs

Constraints: Road conditions are blocked by floods in logistics delivery for residents affected by the disaster so they have to use other routes (via rivers/rivers) so they have to wait longer because the Kab. Bintuni Bay takes longer because you have to go back to Bintuni to use a speed boat via the river

### **4. Floods and Landslides in Kab. Bogor, Prov. West Java**

Chronology : Triggered by high-intensity rain, causing landslides and the overflow of the Ciapus River and submerging into residential areas with a height of  $\pm$  1.5 meters on Sunday, July 24, 2022, Pkl. 15:00 WIB

Location : Kec. Ciomas, Ds. Sukamakmur

Death toll: 31 families/109 people affected, 2 families/6 lives threatened

Material Losses: 29 units of affected houses, 1 unit of RR house, TMA  $\pm$  1.5 meters

Efforts: BPBD Kab. Bogor coordinates with local officials to conduct a rapid disaster assessment / data collection and analysis in affected locations.

BPBD Kab. Bogor provides disaster education and appeals to the surrounding community

Up-to-date Condition: The current situation of the water has receded

Urgent Needs: Logistics
